### **DETAILED ACTION**

Claims 1-7, 9 and 10 are pending in the application.

#### ***Election/Restriction***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 5-7, 9 and 10, drawn to compounds, compositions, method of use and process of preparing the compounds of formula I, where ring A is a piperidine ring.

Group II, claim(s) 1, 2, 4, 6, 7, 9 and 10, drawn to compounds, compositions, method of use and process of preparing the compounds of formula I, where ring A is a pyrrolidine ring.

Group III, claim(s) 1, 2, 6, 7, 9 and 10, drawn to compounds, compositions, method of use and process of preparing the compounds of formula I, where ring A is a tropane ring.

Group IV, claim(s) 1, 2, 6, 7, 9 and 10, drawn to compounds, compositions, method of use and process of preparing the compounds of formula I, where ring A is a azepine ring.

Group V, claim(s) 1, 2, 6, 7, 9 and 10, drawn to compounds, compositions, method of use and process of preparing the compounds of formula I, where ring A is a piperazine ring.

Group I, claim(s) 1, 2, 6, 7, 9 and 10, drawn to compounds, compositions, method of use and process of preparing the compounds of formula I, where ring A is a diazepine ring.

Art Unit: 1624

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventions of Groups I-VI are drawn to structurally dissimilar compounds, compositions, process of preparing and method of use. They are made and used independently. One does not require the other for their use. If, say, the piperidines of Group I, were anticipated, applicants would not acquiesce in the objection of Groups II-VI there over or vice-versa and, thus, they are not linked to the same or corresponding special technical features.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
